

MIDEVIL DEMON LORD MANUAL

Gameplay

You are given 7 days to defeat the hero. Every day you start out with a certain number of actions depending on the amount of minions you have. With these actions there are 7 things that you can do...

Get Wood, Get Food, Get Iron

If you press these buttons you will get a random amount of their respective resource. Pressing these buttons costs one action. The more minions the more resources you get.

Light

This function lights the torch of the castle that you sleep in at night. After three days that torch goes out. If you end the day without lighting the torch you will die.

Craft

Once you get 3 wood you can craft a wooden pickaxe. You can also craft armors and swords.

Make sure to equip the equipment that you create.

Recruit

If you are strong enough, you can recruit a bandit, brigand or demon. Minions increase the amount of actions you have in a day and help you defeat the hero. The more minions you have the more food you will need.

Hope you enjoy playing Medieval Demon Lord!
